

## Mission Statement

### Mission Statement

Our Mission is to provide Prevention and Safety Services to our communities that result in superior customer satisfaction and enhance the effectiveness of the Green Valley Fire District.

### Award of Excellence

The Green Valley Fire Corps was the 2012 recipient of the National Fire Corps Award of Excellence.

This prestigious distinction recognizes the programs and efforts of the over 50 member volunteer group. The Green Valley Fire Corps was rated highest in outstanding performance and achievements in emergency services and community involvement.

Several GVFD staff and Fire Corps members attended the Fire Corps National Advisory Committee meeting near Washington DC to receive the award.

There are 1,600 Fire Corps units in 49 states.

## SERVICE SAFETY SUPPORT

# Green Valley Fire Corps Programs

## ADMINISTRATIVE VOLUNTEERS

- Schedule appointments, prepare materials and make customer contacts for the smoke alarm battery replacement and installation program.
- Work with Community Services in handling customer questions and requests for services provided by the Fire District.
- Maintain several District data bases such as schedules, building maintenance and customer information.

## SHiM® VOLUNTEERS

- Work cooperatively with the Valley Assistance Services for referrals to SHiM® (Safety and Health in Motion), a fall prevention program started in 2010.
- Perform a home safety check which identifies potential fall situations and other safety considerations.
- Install battery powered smoke alarms and fire extinguishers where necessary.
- Follow up with volunteer handymen to mitigate potential fall situations.

## FIELD OPERATIONS VOLUNTEERS

- Perform other miscellaneous duties that allow our firefighters time for higher priority tasks.
- Install replacement smoke alarms and change smoke alarm batteries under our popular Smoke Alarm Program.

- Install residential safe-entry lock boxes, so that emergency responders have immediate access to premises avoiding forcible entry.

## FIELD OPERATIONS VOLUNTEERS

- Install and maintain reflective pavement markers for the 2,000 fire hydrants and clear hydrants of brush.

- Respond to nonemergency situations such as relocation of desert pests, "chirping" smoke alarms and other issues.
